1. Connect the ground wire (bare copper or green) from your fixture to the ground wire (bare copper or green) or ground screw in the electrical outlet box. Connect white power lead(s) from light fixture to white wire in outlet box. Connect black wire(s) from light fixture to black wire in outlet box.

2. Tighten the outlet box cover to the electrical box using the electrical box screws.

3. Unscrew glass cylinder to install specified bulb (sold separately). Screw glass cylinder back on to the fixture.

STYLE #2

For Model BL04CWS

Optional Feature : This model can also be mounted in ceiling or wall with pipe 1/2 size/dia pipe and outlet box cover(sold separately). For mounting and electrical details, please consult your qualified electrician. Listed below are the parts available for this model.

Pipe : BL-PI-10

Outlet Box Cover : BL-OBC

Available in all Canarm Authorized Dealers or call toll free number for details

1. This fixture can be mounted in either ceiling or wall. Decide the way to unscrew the big screw. Select the angle of the fixture to be mounted to the outlet box cover when wall mounted is selected. Make sure to close the hole by re-tighten the big screw after selection.

2. Insert the black and white wires from the top of the reflector through the pipe. Screw the pipe into the top of the reflector. Screw the outlet box cover to the end of the pipe.

3. Using wire connector, connect white supply wire to white lampholder lead. Connect black supply wire to black lampholder lead. The green (earth) ground (or bare) wire from the metal electrical box is connected to the green grounding screw on the inside of the outlet box cover. Pull on each wire lead to make sure connections are secure. Ensure no bare wires are exposed outside the wire connectors.

4. Align the luminaire cove plate. Tighten the 2 lock nuts once the luminaire has been positioned correctly. Tighten the outlet box cover to the electrical box using the electrical box screws.

5. Unscrew glass cylinder to install specified bulb (sold separately). Screw glass cylinder back on to the fixture.
