4. Plug power block into supply wire from driver.
5. Plug LED puck light into power block.
6. Make sure all wires are secured correctly.

For hardwire box wire diagram please see page 2

Surface Mount Installation

Step 1

Using hands, separate outer shell from LED lamp.

Step 2

Using included hardware and a screw driver,
secure outer shell to cabinet surface.

Step 3

Feed connecting cord through a pre-drilled hole in the cabinet surface
or through the cut-out of the outer shell. Secure LED lamp into outer shell.

Recessed Installation

Step 1

Using hands, separate outer shell from LED lamp.

Step 2

Cut out from the bottom of the cabinet a hole
using a 2.5" hole saw.

Step 3

Feed connecting cord through the hole in
cabinet and secure LED lamp.
