Section A

1. Assemble mounting bracket to electrical box using two electrical box screws (not included).
2. Unthread decorative nut from socket assembly and slide down the stem.
3. Slide arm assembly over socket assembly. Spin (lower) hex nut onto the stem approximately 1".
4. Feed wires and stem through the center hole of the mounting bracket. Slide a hex nut over the wires and start tightening onto the stem until "Section A" lines up with the arm assembly canopy (when the canopy is flush to the ceiling). Lock in position by tightening the (lower) hex nut against the mounting bracket.
