

## ROUND BOTTOM TROUGH WITH MOUNTS

## HEATED POLY WATERERS

Model: P25, P50, P100

## TIPPABLE SSH20 SINGLE HEAD WATERER

Single head waterer for calves and cows

## HEATED LIVESTOCK WATERERS

Available models: H50, HL50, H100, H200

**FACT**

**STUDIES HAVE SHOWN THAT THERE IS LESS BACTERIAL GROWTH ON STAINLESS STEEL WATER TANKS.**

New round bottom design allows for easier cleaning to keep water fresh for your cows!

## FEATURES

- Easy to tip the trough to keep your cows' water supply clean. No tools required!
- Heavy duty 304 stainless steel construction.
- Reinforced edge for safety and added strength.
- Designed to keep cows safe from corners, pivoting assembly and float cover.
- Available in 4', 6', 8', 10' & 12' sizes.
- Easy to clean with a brush, limited number of corners.
- Heavy duty wall and floor mount options.
- Mount system protects the trough in a high traffic area.

Visit our website to see a video of just how easy it is to tip and clean.

New built-in drain tube for quick and easy water changes and maintenance!

## FLOOR MOUNT

## FEATURES

- Built-in, hands-free drainage tube for effortless maintenance.
- Integrated drainage tube enables quick and easy water changes.
- Reduces cleaning time and promotes a healthier environment.
- Heavy duty 304 stainless steel construction.
- Fully reversible tank kit design allows flexibility in water inlet and drainage direction to suit the farmer's preferences.
- Round bottom design for easy cleaning.
- Available in lengths from 4 to 10 feet.
- Wall and floor mounting options.

## WALL MOUNT

## TIPPABLE SINGLE HEAD WATERER FOR CALVES AND COWS

Part of Canarm's line of water source solutions.

### FEATURES

- Tippable design for easy emptying.
- Float controlled water flow - protected from animals.
- Made from durable stainless steel, to resist corrosion.
- Low maintenance and easy to clean.
- Stainless steel reduces bacteria growth.
- An easy way to provide multiple watering locations throughout the barn and at the feed bunk.
- Suitable for all age groups.
- Universal mount.
- 13 gpm float valve (49L/min).

Canarm's Energy Efficient Heated Livestock Waterers are designed for both durability and ease of use.

2" INSULATION (R15)

FLOAT & VALVE ASSEMBLY

Our strong, double wall design, combined with 2" of injected polyurethane foam insulation, gives an R15 insulation value, one of the highest in the industry. The new Poly option for the 50 head waterer has a R18 insulation value! Our waterers are 4X Corrosion Resistant.

Based on PAMI testing our HL50 and H100 were rated #1 for energy savings. The energy cost for the winter season on our HL50 model proved to be almost 3 times more efficient than the competitive models tested at the same time. Our H50, HL50 and H100 are now designed with more than twice the amount of insulation than the models tested by PAMI.

The hinged bowl is designed to lift up for easy cleaning, as well as quick access to all internal components. Stainless steel bowl construction ensures long life, and eliminates the risk of chipping paint and rust contamination. Canarm heated livestock waterers come with either a 300 watt or 500 watt thermostatically controlled heating element. An external pilot light (there is no pilot light on the P50), which is visible from a distance, glows when the heater is operating. The thermostat is adjustable and can be accessed through the control cover. The nylon control valve is designed for trouble free, year around operation.

## FEATURES

### H50

- 2" foam insulation - R15
- Pilot light glows when unit in operation
- Waters up to 50 cattle
- 120V, 300 watt element
- 24" H x 26 1/2" L x 16 1/2" W
- 5.5 GPM @ 30 PSI
- 2.5 AMPS
- Water capacity: 25L/6.6 gal
- 1 year warranty

### H100

- 2" foam insulation - R15
- Pilot light glows when unit in operation
- Waters up to 100 cattle
- 120V, 500 watt element
- 24" H x 31" L x 22" W
- 5.5 GPM @ 30 PSI
- 4.2 AMPS
- Water capacity: 45L/11.9 gal
- 1 year warranty

### HL50

- 2" foam insulation - R15
- Pilot light glows when unit in operation
- Waters 50 cattle or 200 sheep
- 120V, 300 watt element
- 12" H x 26 1/2" L x 16 1/2" W
- 5.5 GPM @ 30 PSI
- 2.5 AMPS
- Water capacity: 25L/6.6 gal
- 1 year warranty

### H200

- 2" Injected structural foam insulation - R15
- Pilot light glows when unit in operation
- Waters up to 200 Head of Cattle
- Hi Flow valve design 12 GPM @ 30 PSI pressure for faster fill.
- 120V, 500 watt + 300 watt element
- 24" H x 42 1/4" L x 28 1/4" W
- 6.7 AMPS
- Water capacity: 75L/19.9 gal
- 1 year warranty

**RUGGED • ENERGY EFFICIENT • ANIMAL FRIENDLY • ECONOMICAL**

## HEATED POLY WATERERS

- Durable poly cabinet resists corrosion for years of service.
- Stainless steel top and poly cabinet will never rust.
- 4X Corrosion Resistant
- Comes with seamless stainless bowl.
- Stainless steel bowl construction ensures long life, and eliminates the risk of chipping paint and rust contamination.
- Thicker cabinet wall for a superior R value (R18).
- Mounting corners molded inside the cabinet make for easy installation and removal.
- Bowl has rounded corners that provide a durable yet smooth surface that is gentle on animals.
- Comes with a thermostatically controlled heating element.
- Electrical box hinges open from the inside for easy access to components.
- Adjustable thermostat.
- Nylon control valve is designed for trouble free, year around operation.
- 1 year warranty.

## FEATURES

### P25

- 2" PLUS foam insulation – R18
- UV resistant Polypropylene
- Waters 25 cattle or 100 sheep
- 120V 190 watt element
- 18"H x 20"L x 20"W
- 5.5 GPM @ 30PSI
- Water capacity: 16L/4.22 gal
- 1.6 Amps

### P50

- 2" PLUS foam insulation - R18
- UV resistant Polypropylene
- Waters 50 cattle or 200 sheep
- 120V, 300 watt element
- 24" H x 29" L x 19" W
- 5.5 GPM @ 30 PSI
- Water capacity: 25L/6.6 gal
- 2.5 Amps

### P100

- 2" PLUS foam insulation – R18
- UV resistant Polypropylene
- Waters 100 cattle
- 120V 500 watt element
- 24"H x 34"L x 25"W
- 5.5 GPM @ 30PSI
- Water capacity: 45L/11.9 gal
- 4.2 Amps

## HEATED LIVESTOCK WATERERS VALVE & FLOAT

Illustration #1

- (1) Part#: **H0511 / H0512**  
No longer available.  
Upgrade to newer valve (Illustration #3) is recommended.

Illustration #2

- (2) Part#: **H0-P4200 / H0-P4201**  
No longer available.  
New valve (Illustration #3) replaces valve shown in Illustration #2.

Illustration #3

- (3) Part#: **H0-P4300** Available and current default valve (5.5 GPM @ 30 PSI)  
Part #: **H0-P4305HF** for H200 model (12 GPM @ 30 PSI)

Float: **H0-P4836**

- 2001 Post-1994 valve assembly (see Illustration #1) required costly design upgrade for high water pressure (PSI) locations. Research thus began for alternate valves.
- 2003 An alternate valve (see Illustration #2) was found, tested and approved to cover high PSI locations with fair results for low PSI locations. Decision was made to completely switch to this valve.
- 2005 Feedback indicated that low PSI locations needed greater water flow. Valve supplier was immediately contacted for further development. In the interim however, low PSI users were told to purchase the post-1994 valve (Illustration#1) with an updated plastic float as a replacement assembly.
- 2006 A redesigned, more robust valve (Illustration #3) with improved sealing and a larger orifice size (with capacity for further enlargement) was soon developed, tested and approved. All 2006 waterers will have this new valve (Illustration #3).
- 2009 A high flow valve has been added for the H200 waterer. It is rated for 12 gal/min at 30 PSI. See replacement part #H0-P4305HF. It is retro-fittable to older models.

## TROUGHS

1. Order trough package
  - Specify length
  - Specify mount style
  
2. Order fill system
  - Standard plastic float (13 GPM)
