## Making New Friends...

Our Director of Manufacturing (AG/HVAC) - Sean McDowell and our AG Manufacturing Leader Al McMillan recently visited an Arthur pig barn. It was Sean's first visit to a hog facility. What did he think?

"I really enjoyed seeing our products being used in the field and learning more about the innovation our team is driving to provide a superior product."

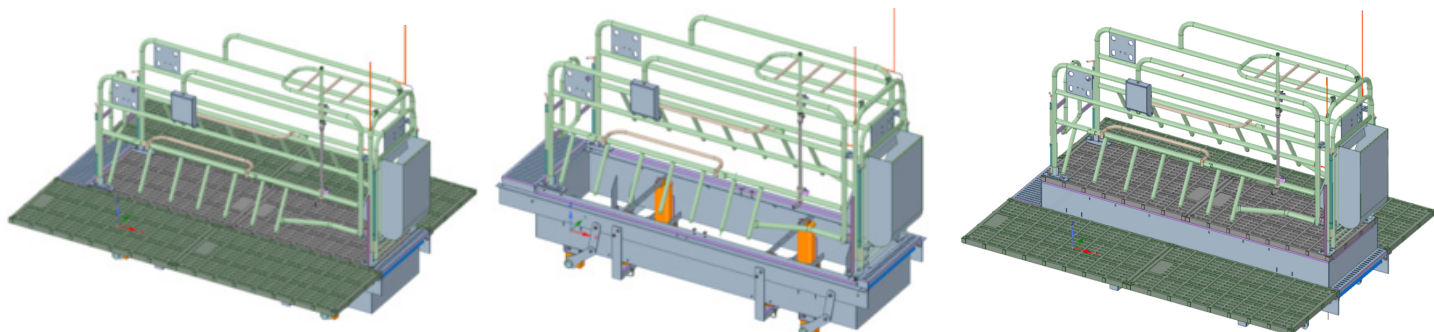

# New Products

## Change the way you think of saving pigs with the Canarm Lift Crate System (CLCS)

The Canarm lift crate system not only saves pigs but takes your production success to new heights.

It features exceptional stability, premium traction and durability, easy 4-bolt installation, flame resistant surface, integrated hot water heat, and lift components designed to give you peace of mind. With Canarm's commitment to innovative excellence, the CLCS not only raises the bar, but it will bring your confidence to a whole other level!

## UNITY NATVENT CONTROLLER

The Unity NATVENT Controller offers a wide range of capabilities at a very competitive price.

- Controls 4 curtains
- Controls 2 on/off fans or heaters
- Supports 5 temperature probes, 1 outdoor (option)
- Curtain timers accurate to 1 second
- Limit curtain openings in winter without having to adjust actuator limit switches
- High and low temperature records
- One page summary and LED indicators for curtains and on/off stage activity
- High and low alarm settings option

## Innovation at work

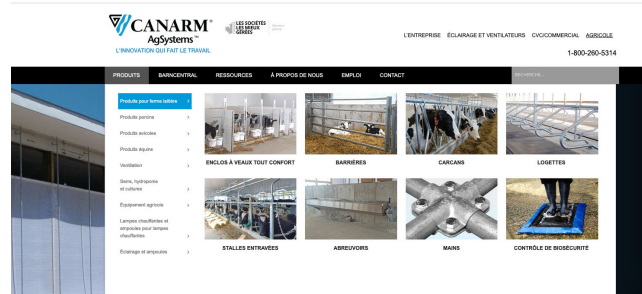

Our curtains are not just for barns! They are also very effective wind protection. We are proud to help support local small businesses in protecting their patrons not only from Covid but from wind & harsh weather as well.

## Coming Early 2021 / À venir début 2021
